

Revelation Bible Study

Chapters 6:1-20:10

Revelation can be more correctly understood by comparing the six camera angles of a soccer game below. What we see below is a person standing in a television control room and looking at different views of the game, all views occurring simultaneously.

In a similar way, the six visions of the End (6:1-20:10) revealed to the apostle John and recorded in Revelation, are not to be understood as following one another sequentially, but these are occurring simultaneously. (The information above and the visuals below are from GOOD NEWS found in their book Revelation Issue 12.)

The six pictures of the six visions that follow will precede a study on each vision.
